Number of Publications

year	num	year	num
1992	1	2002	3
1995	1	2003	2
1997	2	2004	6
1999	1	2005	4
2001	3	2006	9
		(2007)	(4)

number of publications on linguistic steganography published in each year

Problems

no single publication venue; relevant contributions scattered throughout the literature.

no name; hard to index; “googling” for “linguistic steganography” won't get you far.

Symptoms

At least eight research groups; Only two of them routinely cited!

Bulk of all publications never cited.

independent discovery,
improper attribution

Solution

a comprehensive bibliography on

<http://semantilog.ucam.org/biblingsteg/>

...with a little help from the community, we hope to keep this up to date.

Solution

To bootstrap the process of community collaboration, we searched in November 2006 on

Yahoo, MSN Search, Google, Google Scholar, CiteSeer, Copernic Agent Pro, ACM Guide, ACM Digital Library, IEEExplore

Community Participation

spot any omissions?
authored new material?

send a BibTeX file to
biblingsteg@semantilog.ucam.org

Community Participation

maintain a website on ling. steg.?
